Speaker biographies

Ladan Najafi:

Ladan has an MSc in Bio Medical Engineering and a post-graduate Diploma in Clinical Engineering. She is a Chartered Engineer and has worked at East Kent Hospitals since 2011.

Ladan has co-authored a number of publications on clinical and biomedical engineering and has a particular interest in the role of assistive technology in empowering those with disabilities.

Sue Southon:

Before her retirement, Sue was Director of Community Services & Director of Nursing in Bromley, a role that included responsibility for Patient & Public Engagement.

Since then, she has had a number of senior roles in the voluntary sector, including Chair of her local Patient Participation Group and has been on West Kent CCG's Governing body since 2012.

Sophie Gourlay:

Sophie is a graduate from the University of Sussex and has worked at Docobo for three years, covering customer service, system support and product management, working with both patients and the company engineers.

She has worked with various NHS organisations to implement digital health technology for the frail and/or elderly and has been involved in a number of projects involving Falls Prevention, AF detection and Long Term Conditions.
